GAGAN KHANDELWAL

Software Developer | Software Engineer | Full Stack Developer (MERN)

Jaipur, Rajasthan, India | Phone: 9079059377 | gaagankhandelwal@gmail.com
github.com/gagan200345 | linkedin.com/in/gagan-khandelwal-098748256 | Open to Remote, Hybrid & WFH

PROFESSIONAL SUMMARY

Recent B.Tech (AI & Data Science) graduate and aspiring **Software Developer** with hands-on experience in **Full Stack**, **Frontend**, and **Backend Development** using **JavaScript**, **React.js**, Node.js, Express.js, **SQL**, and MongoDB. Skilled in REST API development, **API Testing** (Postman), debugging, and Git/GitHub. Seeking a full-time **Software Development** or **Software Testing** role in a remote, hybrid, or WFH setting.

KEY SKILLS

Frontend Development: React.js, **JavaScript**, HTML5, CSS3, Bootstrap, Component Lifecycle, State Management, Responsive Design

Backend Development: Node.js, Express.js, REST API Development & Integration, JWT Authentication, Middleware, CORS

Databases: SQL, MySQL, MongoDB, MongoDB Atlas, Database Schema Design

Testing & Debugging: Software Testing fundamentals, **API Testing** (Postman)

Programming Languages: JavaScript, C++, SQL

Tools & Workflow: Git, GitHub, VS Code, Postman

Computer Science Fundamentals: Computer Science, Data Structures & Algorithms, OOPs, Operating Systems

PROFESSIONAL EXPERIENCE

MERN Stack Developer Intern (Software Development) Jul 2024 – Aug 2024

IKaizen Technocraft Pvt. Ltd — Jaipur, Rajasthan

- Developed and maintained full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), delivering responsive and reusable **React.js** frontend components.
- Built and integrated REST APIs for **backend development**, enabling smooth data flow between frontend and backend modules.
- Designed MongoDB database schemas and managed database operations for structured, efficient data storage.
- Implemented JWT-based authentication and authorization and configured CORS policies to secure application access and client-server communication.
- Tested and debugged REST APIs using Postman to verify functionality and resolve defects.
- Maintained code quality and version control with Git and GitHub across the software development lifecycle.

PROJECTS

ShopSphere — Full Stack E-Commerce Platform

Tech: React.js, Node.js, Express.js, MongoDB, JWT, Zod, bcrypt, REST API

- Built a scalable **full stack** e-commerce web application with secure user authentication, product catalog, shopping cart and order management.
- Developed REST APIs for full CRUD operations on products and orders, with JWT-based session management.
- Implemented Zod schema validation and bcrypt password encryption to enforce security best practices.
- Designed error-handling middleware and a responsive React.js frontend with an optimized component lifecycle for performance.

Readify — Online Bookstore Web Application

Tech: React.js, Node.js, Express.js, MongoDB, REST API

- Developed a full-stack **web application** with book search, secure login/signup and shopping cart functionality.
- Built reusable React.js components with responsive design for a seamless experience across devices.
- Integrated REST APIs for user session handling and real-time book data management.

EDUCATION

B.Tech — Artificial Intelligence & Data Science 2022 – 2026

Rajasthan Technical University (RTU), Rajasthan

Senior Secondary (XII), RBSE 2021 – 2022

Secondary (X), RBSE 2019 – 2020

ACHIEVEMENTS

- Solved 60+ Data Structures & Algorithms problems on GeeksforGeeks, strengthening problem-solving skills.
- Solved 50+ **SQL** problems on LeetCode, strengthening database query and optimization skills.
